

Product Model No. : LK FLW 150
Product Description : LED Follow Spot Light

LED Follow Spot Light

Efficient superior output Long throw LED follow Spot has the Faders and buttons are located directly on the back of the fixture to control the unique features. The unit has 4 color wheel + open that produces a red, green, yellow, blue and white spot light. High quality parameters of CRI & TLCI best suitable for Auditorium Stages and Event Stages, Multipurpose venues etc.,

Accessories: Stand, Power cord

Technical Specifications:

Electrical & Power:

- Power Consumption 180W
- Input Voltage AC 220V ~ 240V, 50Hz/60Hz

Lamp Source:

- LED COB Based Source
- Color Temperature 3200 ~ 5600K
- Colour Rendering Index 90+
- Tel. Lighting Consistency Index 90+
- R9 Value 90+
- 50,000 Hours Burning life

Control:

- Manual ON/ OFF
- Pre-set buttons built in
- Manual Dimming Potentiometer
- Manual Zoom
- Manual Focus

Physical & Construction:

- Dimension 1000 x 295 x 360mm
- Weight 14.0 Kgs/ 30.8 lbs
- Ingress Protection IP20 Rated
- MS & Extruded Aluminium Body
- Black Powder coated finish
- Mountable on Stand
- Zoomable Option

Optical Arrangement:

- Beam Angle : 10~16 Degree
- Dual Lenses for Variable Beam
- Colour Filters inbuilt

Other:

- Working Temperature +45° ~ -30°
- Color: color wheel 5 colors + white light, the pattern can be customized
- Constant color temperature during dimming
- Aperture effect: The aperture size is adjustable
- Adjustable forced ventilation
- Heat dissipation system: high-strength air cooling
- Adjustable fork for correct headlight balancing
- LED temperature control and management system for maintaining the optimal operating ranges.
- Control signal: self-equipped signal knob control
- Optical system: 150W led lamp beads
- Built-in protection mechanism to prevent overheating
- Compact and lightweight design for easy transport and installation

Available Models:

- LK FLW 330
- LK FLW 400
